(May 2016 – August 2016)

### College of Charleston

Computer Science/Information  
Systems (2017)

## VOLUNTEER & INTEREST

### The Iron Yard Kid's Academy

Teacher (June 2016 - July 2016)

### True To Your S.O.L.E.

Volunteer in Back to School Drive (May 2012 – Present)

- Supplying kids with school supplies and backpacks for the up and coming school year.

### Higher Learning

Volunteer (August 2014 – September 2015)

- Working with kids at an alternate behavior school, helping improve their behavior and grades. For those who start showing improvement in behavior and grades are rewarded with sneakers and better school supplies during the school year.

## PROJECTS

### MARKET DIRECT

- Market Direct is a mobile friendly application that bridges the gap between Vendor and Customer at local farmer's market. Making it easier for the customer to view inventory of the Vendor and make a shopping list. Written with Java and AngularJS, includes secured login, photo upload, profile editing, and database matching. View code here [Market Direct](#).

### CRUD SPRING

- A social sneaker forum that allows users to upload sneakers they own or are looking for, along with searching by category to see a specific brand of sneaker. Built with Spring and H2 database. View code here [Crud Spring](#).

### MIX

- Mix is a mobile friendly app that allows a user to upload recipes they love or would love to make and other users can see what they upload. With a rating system to up and down vote recipes. Built with Spring, H2 Database and Angular. View code here [Mix](#).

## EXPERIENCE

### ALL POINTS BULLETIN - (Sales Lead) (September 2015-Present)

- Manage product inventory and drive sales. Along displaying customer service skills to help build clientele along with networking and managing events that are hosted by the store.

### FOOT ACTION - (Sales Lead) (March 2012 - June 2016)

- Monitored and reviewing store performance on a regular daily, weekly and monthly basis.
- Improved customer service after getting feedback and capturing data from customers.
- Maximized sales through effective merchandising and marketing.

### SPRINT - (Technical Support) (August 2014 – February 2015)

- Handled situations, which require adaptation of response or research according to unique customer situations.
- Analyzed problems with wireless equipment, software applications, and network performance to identify problem root cause and recommend corrective action.

### WINCHESTER XAVIER & ASSOCIATES- (IT Support Technician) (May 2013 – March 2014)

- Supervised iPads through Apple Configurator, using Mobile Device Manager for all the Charleston county schools to upload applications for teachers, and students.
- Supported and troubleshoot iPads, through service calls made by the school(s) for staff and students.
